We know that many families look forward to camp during the summer. We typically serve more than 1,100 children in our various camp offerings. This year, due to COVID-19 and the extensive requirements set by the Restore Illinois Plan and Illinois Department of Public Health, we are not able to offer summer camp as we have in the past. Instead, we are offering Summer Club which meets social distancing and various other safety guidelines and can accommodate 153 children during Phase 3. It is our hope that we will be able to expand this offering should we reach subsequent phases in the plan this summer.
